The REVO headset is a 100% over-ear headset that offers listeners premium sonics, genuine vocal quality capture, and has unique ear cup swivel technology to perfectly fit each individual listener. The REVO has thick, luxurious ear cushions that gently surround and insulate the ear at 360° while a sleek and compact mic boom with a discreet mute function automatically activates when the boom arm is raised. The refined and modern design coupled with custom-tuned 40mm drivers and our Stealth Release™ modular ear cushions/cables make the REVO a revelatory listening experience.
